THE DOMINION CAPITAL.

MR. LAURIER MOVES A NON-CONFIDENCE MOTION.

The Leader of the Opposition, Deceived by the Government, Selects His own Time—The Divorce Bill—Lady Macdonald to be Made a Peeress.

OTTAWA, June 22.—In the supreme court to-day judgment was delivered in three appeals from Manitoba, in regard to adding ten per cent. interest to uncollected municipal taxes. The Manitoba court pronounced it legal, and the Provincial Government passed an act legalizing the same. The Minister of Justice held with the courts and against the Province, but to-day the supreme court upheld the appeal and the constitutionality of the local act, maintaining that adding interest was only another form of collecting taxes. The Manitoba courts and the Dominion Government held that the question of interest was alone invested in the B.N.A. Act in the Dominion.

In the House to-day Mr. Laurier took the Government by surprise when he rose to move the adjournment of the House on the orders of the day being called, so that he might review the construction of the Government, which he was prevented from doing on Friday, by the Finance Minister refusing to go into supply. He gave notice on Thursday that he would do so, but in the future he said he would only give such notice to the Government as parliament required him to do. He charged the present Government with having taken a wide departure from the policy of Sir John Macdonald, which was to maintain the equilibrium of the different sects and interests in the Cabinet, but from this, the present Government had departed. He went on to show that in the selection of Abbott as Premier, who has for the past ten years not been working for the State, but framing legislation and devoting his whole attention to Canadian Pacific interests, that the railway had to do with his appointment. Where was Abbott during all the elections of the past ten years? Not fighting for Sir John, but in the service of the company. He would like to think his interests in that company ceased, but he could not believe it, and therefore these interests would always be held by the Premier to be paramount to those of the country. He spoke of the rival factions in the cabinet, which made Abbott say he was only a compromise, and thought he was treated to scanty information. He quoted from the Conservative organs to show that a cabal existed, that there were star chamber meetings, and that general discord existed in the Cabinet, and this was contrary to British precedents, which showed that the Ministers as well as the members, ought to support their views with their votes, actions and speech. Laurier spoke forty minutes and was loudly cheered. Thompson replied, again illustrating that he will be the actual leader of the House.

Rumors that in to-morrow's budget the Minister of Finance will announce that the duty will be taken off imported sugar and a duty to a corresponding degree will be taken off the imported article, bring a protest from the sugar refineries, who advance the old argument that the Americans will sell here below the cost of production if the duty on the refined article is lessened and the Canadian business will be ruined. Vancouver refinery is among those who protest.

An examination into the matters connected with the erection of the new departmental block here, before the Public Accounts committee to-day, shows a state of rottenness only second to the McGreevy scandal. In the first contract, which was $295,000 there were $213,000 extras. The sooner Langevin is removed the better.

Tarte, Joncas and another leading French Canadian notified the Government that they will vote with the Opposition in future.

The British Columbia members have asked for provisional clauses to the Fishery Act respecting the dumping of offal in rivers, and the appointment of a Royal Commission to investigate the best means of developing the fishing industry of the Pacific Coast.

Senator Macdonald's bill gives the the Ontario High Court of Justice, the Manitoba Court of Queen's Bench, the Supreme Courts of Prince Edward Island, and the Northwest the same jurisdiction in respect to an action to dissolve marriages, or to obtain judicial separation, as if the action were for the ordinary causes within the jurisdiction of these courts. The grounds under which a divorce may be granted are adultery, or if the husband deserts his wife for a period not less than five years. An appeal may be made to the Supreme Court. The functions of the Senate in regard to divorce are not disturbed, simply I suppose, because to abbreviate its powers would be *ultra vires* of itself—an act for the Imperial Parliament.

When Hon. Mr. Laurier complained that the Government had shirked the issue to be raised on his want of confidence motion, by postponing supply, he asked if they would be ready to "face the music" Tuesday. Mr. Foster said that the budget speech would be delivered on Tuesday. The leader of the Opposition will ask the House to condemn the Abbott Government, because Sir John Thompson and Sir Hector Langevin were passed over in the choice of a Premier, and because the new Premier is not a member of the Commons. Mr. Laurier's motion will give an opportunity to discuss the policy and personnel of the new administration, and a lively debate is imminant at least from the Opposition side. Orders may be issued to the Conservatives to vote the motion down without debate, for it is feared that a general discussion can do the Government no good and may do it very much harm. But it is the beginning of the Government's troubles and the end is not yet. Langevin looks uneasy and nervous, but his conscience is no doubt worrying him since it has become probable that Tarte's net will close around him and McGreevy at the same time.

The two Victoria representatives, Messrs Earle and Prior, are more faithful than ever, if that be possible, to the Government. Victoria has everything to lose and nothing to gain, from the course pursued by its members.

If raw sugar is made free, the loss of revenue will amount to $2,500,000. It is expected that the deficiency will be made up by an increase on tea duties.

A proclamation, issued on Saturday, officially announced the agreement to the Behring Sea *modus vivendi*.

The New York Herald's Montreal correspondent says that Lady Macdonald, the widow of the late Premier, is to be made a Peer by Queen Victoria in recognition of the eminent services rendered by her husband to the Empire. It is not yet known whether the peerage will be for life or perpetual, but it is generally believed that the patent will be made out in favor of Sir John's grandson "Little Jack." At the close of the session Mr. Hugh John Macdonald, son of Sir John, will proceed to England to lay personally before the Sovereign the decorations and orders granted Sir John Macdonald by the Queen. This is in pursuance of the usual custom, and it is believed that when he does so he will receive the honor of Knighthood from Queen Victoria.

Mr. Corbould interviewed the Postmaster-General to urge the extension of the street letter and delivery system to Vancouver and Westminster. He also repeated his interview with the Minister of Public Works relative to the protection of settlers in Chilliwack and Sumas from the inroads of the Fraser River.

Worse than No Appropriations.

OTTAWA, June 22.—It is reported that when Mr. E. Dewdney is retired from the cabinet, on a reconstruction, he will be appointed Lieut.-Governor of British Columbia, to succeed Lieut.-Governor Nelson, whose term expires next year. But as Dewdney's influence in government circles is now practically *nil*, the report will require confirmation before it is believed.

A Boy Murderer.

PARKERSBURG, W. Va., June 22.—Clarence Neal, a boy 18 years of age, who killed his father when only 14 years old, committed another bloody crime while attending a church festival at Riverside on Friday night. Neal got into difficulty with another boy named Dobson. After the boys had been separated a short time, Neal went in search of Dobson with the intention of killing him. Chas. Skidmore, a boy of 15, was standing by leaning against a tree and as he dressed like Dobson, Neal mistook him for the latter. He slipped up behind Skidmore and struck him on the head with a loaded whip, crushing the skull and inflicting fatal wounds. Neal then fled and probably does not yet know that he murdered the wrong boy. Neal killed his father four years ago with an iron poker and although it was proven that he had threatened his father, on account of his youth and through sympathy with his family, he was acquitted on the ground of self-defence. The boy has always been vicious and was feared by all who knew him.

A Mexican Expedition.

CITY OF MEXICO, June 22.—Several days ago the warships Independence and La Liberado, of the Mexican fleet, sailed from Vera Cruz with 400 soldiers for an unknown destination. They sailed at midnight and any amount of questions failed to locate the point for which they sailed. It is now believed they have gone direct to Hayti, where they have been ordered to demand reparation of Hippolyte for a violation of the Mexican consulate at Port au Prince. A telegram from the United States, giving details of the act has caused indignation. It is stated by a government official of high authority, that neither one of the warships has sailed for Hayti, but they have gone to Huatasco, to put down a revolt among the Indians. He says no steps of a warlike nature will be taken by the Mexican Government, but an apology will be demanded and insisted upon till it is forthcoming.

The Seabright sufferers.

SEABRIGHT, N. J., June 22.—The weather, which has been execrable for nearly a week, is telling on those who were burned out and are now deprived of the comforts of a home. The cold, wet wind, which has been blowing in from the sea all day, has prevented those who are housed in barns and tents having any comfort. Everything has been done to make the tents comfortable, but the best efforts will not keep out the wind and wet. As a result, most of the people living in tents are suffering from cold and the lack of a change of clothing. Dry, warm clothing and plenty of it must be had very soon, or fatal results will surely follow. The tents are placed so as to leave an open street between them. Many loads of contribution are still coming in. Food is not so much needed as clothing.

The Anaconda not Sold.

NEW YORK, June 22.—The Tribune says: A San Francisco dispatch was published yesterday, in which it was said that the famous Anaconda copper mine, near Butte, Mont., had been sold for $2,500,000 to an English syndicate. The owners of the mine are Marcus Daly, J. B. Haggin and Lloyd Tevis. Mr. Haggin was first seen by a Tribune reporter last night. He said positively there was not a word of truth in the rumor, and that he did not know whether the mine ever would be sold. Marcus Daly was seen by a reporter and said: Less than a week ago, there was not money enough in the world to buy the Anaconda.

Lynchers Acquitted.

WALLA WALLA, June 22.—The jury in the case of the six soldiers on trial for lynching J. A. Hunt, returned a verdict of not guilty. A bodyguard escorted the soldiers back to the garrison, where they were put in the guardhouse to await court martial.

EUROPEAN DISPATCHES.

THE PRINCE OF WALES BEING REHABILITATED.

He Attends Public Ceremonies With Royalty and Eminent Personages—The Queen of Saxony Ill—African Envoy in England—The Vatican Finances.

LONDON, June 22.—Mr. Gladstone is said to have forwarded a personal request to Mr. Cobb, M.P., asking him to give up his proposition to renew the subject of baccarat in the House, but without avail, as Mr. Cobb, who generally works well into the Liberal tracks, refuses to be influenced. He is not a vulgar agitator, but a man of a university education, a successful solicitor, and a banker. He is also, however, deeply conscientious in religious work, and has a horror of aristocratic dissipation. That the popularity of the Prince of Wales has not abated was shown by his reception at Eastbourne on Saturday. The Prince, in company with the Princess, opened the addition to All Saints' Convalescent Home, at the foot of Beachy Head, and were received by the greatest enthusiasm. Later in the day they drove to Upperton, and opened the children's wards of the hospital, established in memory of the hapless Princess Alice, who was mother of the still living but unhappy Grand Duchess Elizabeth of Russia, at Compton. After these ceremonies the Prince was the guest of Lord Hartington, where a distinguished company was assembled to greet his Royal Highness. To-day not only the Prince and Princess of Wales, but Queen Victoria, and the Duke and Duchess of Connaught were present at the marriage, in the Wellington Barracks church, of Col. Wm. E. Montgomery, of the Scots Guards to Miss Alberta Ponsonby, daughter of General Sir Henry Frederick Ponsonby, keeper of the privy purse and private secretary to Her Majesty. The Queen has the highest regard for Sir Henry and Lady Ponsonby, and took this way to testify her esteem. If there is any strain in the relations between Her Majesty and the Prince of Wales it was not apparent on this occasion. On the contrary, the Queen looked particularly happy and cordial, as if desirous to make all around her feel happy. Her Majesty has also invested Mrs. Grimwood, with her own hands, with the order of the Red Cross, for heroism at Manipur, where Mr. Grimwood was murdered.

THE QUEEN OF SAXONY.

A Dresden dispatch says that Queen Carola, of Saxony, is suffering from severe nervous prostration, as a result of her narrow escape from death a few ago, while visiting Baron Gudenus, at his estate in Morvia. It appears that while the Queen was being driven to the railway station, a tremendous thunderstorm and a flash of lightning struck the carriage. The horses began to rear and started to run, but the coachman held bravely to the reins, and got them under control. The Queen, who behaved with remarkable coolness at the time of danger, afterwards suffered from reaction and became prostrated.

PRINCE FERDINAND ENGAGED.

A report is current of the engagement of Prince Ferdinand, of Bulgaria, to the Arch-Duchess Louise, of Tuscony and Austria. The Bulgarians are anxious to see the Prince married, especially as his conduct of late has been very scandalous, and he is under the necessity of doing something to redeem himself. The Prince is about thirty, and the Arch-Duchess about twenty years old.

NO SIGNS OF RELIEF.

A Berlin dispatch says the adjournment of the Prussian deit without anything having been done to relieve the scarcity of corn has had a deep effect among the working classes, who consider that their interests have been sacrificed to those of the land proprietors. There are at present no signs of relief from any quarter, and the scarcity continues to deepen.

AFRICAN ENVOYS.

It has been settled that the two black envoys of King Gungunhama, of East Africa, are to see the Queen and afterwards they will be introduced to the Prince of Wales, but not to the baccarat layout, and Lord Salisbury. It seems that the envoys of the African King Lobengula were only shown London and went back with a story that England had only one big kraal. To prevent these messengers from making the same mistake they are to be taken to Glasgow, Manchester, Liverpool and other large cities. While breakfasting at Dorchester House a few days ago, one of the African envoys nearly swallowed a silver spoon, with which he was conveying food to his mouth. The spoon, which got stuck in the throat, was promptly removed, though not before the African was nearly choked.

IRISH PROTESTANTS EMBOLDENED.

The Irish Protestants have, it is said, been greatly emboldened by the result of the recent census, showing that they are about 1,000,000 of the population, that is about one-fourth. The Orange lodges everywhere are showing new activity, and the same is the case with the churches.

BOOKS PRESCRIBED.

Herbert Spencer's work on "Education," and Bain's "Education as a Science," prescribed by the government educational department, have been put under proscription by the authorities of the church training colleges. Both books are better known in America than in this country. Probably few American educational societies of the most orthodox type would object to them on the ground of heterodoxy, but the clerical intolerants of the church training colleges have protested, and the educational department meekly submitted.

THE HOLY COAT.

A great religious function will open at Treves, August 23, when the rarely seen "holy coat" will be exhibited in the Cathedral of St. Peter and St. Helen. The "holy coat" is a relic which has been preserved with the greatest treasure. It is alleged to be the seamless coat worn by our Savior. It is said to have been discovered by the Empress Helena during her memorable visit to Palestine, in the fourth century. After numerous vicissitudes the coat was deposited in the Cathedral of St. Peter and St. Helen, and since the year 1189 has, at exceedingly long intervals, been exhibited to the faithful. Miraculous curative properties are ascribed to the relic. The exhibition of the "holy coat" in 1844 is memorable for the reaction which it procured, leading to the secession of German Catholics from the Church of Rome.

VATICAN FINANCES.

The Pope has reduced the number of appointments and expenses of the Vatican. He is much depressed on account of the losses experienced by the administration of St. Peter's pence. These losses are due to the economic crisis at Rome. The Vatican has lost a large part of its funds in the Banco di Roma and other Italian financial societies. The holy see is unable at present to realize on investments. The statement that the losses were due to Bourse speculations is unfounded, but the distribution of the Vatican funds has certainly displayed a want of practical business capacity.

LEPROSY CAN BE CURED.

The report of the leprosy commission, which has been enquiring since November last into the conditions under which this disease spreads and breeds in India, is approaching completion. The commission is now sitting at Simla, preparing a report which will present the most exhaustive scientific study of the subject ever given to the world. The commission, which is comprised of medical experts, has visited the leper hospitals and studied the condition of lepers in prison, in the streets and in some of the isolated places. Every part of India where leprosy prevails has been locally studied, with a view to ascertaining how far conditions of environment assist in propagating the disease. Some thousands of cases have been examined, mieroscopie researches made into the distribution of the supposed bacillus of leprosy, and a series of bacterological investigations conducted, which are said to have given astonishing results, promising a cure of this hitherto irremediable curse.

DISTINGUISHED SURGEON DEAD.

A SUGAR WAR.

Interview With the Manager of the Vancouver Refinery.

VANCOUVER, B.C., June 22.—In an interview had by the Post-Intelligencer correspondent on the question of the sugar war between the Vancouver refinery and Spreckles, of San Francisco, Manager B. T. Rogers, of the former concern, said he had not begun the fight. It was the San Francisco people who first came in upon the British Columbia market, and not the British Columbia people who went into the Sound market. While the refinery here was closed down, he said, the profit had been lost, and now that they had a chance to recoup themselves by going into the enemy's reserve, he proposed taking every advantage of it. "It is a fair fight," he continued, "and no favors. They came in to rob us of our market and played havoc with us for the time being, and now we have a chance to pay them back in their own coin, and we are going to take advantage of it so long as it lasts. If the San Francisco people gave their sugar away here, and thus cut us entirely out, we can only retaliate by carrying the war into their camp."

"Would you be willing then," was asked, "to declare a truce, provided an arrangement was made whereby no American sugar would be sent in here and you in return agree to cease exporting to the Sound?"

"Yes," replied Mr. Rogers frankly, "they started this business and we are certainly in it, but if they cry quits we would be quite willing. Let them leave us in undisturbed possession of our own market and we will not disturb theirs.

The Press-Times, of Seattle, publishes an interview with E. C. Neufelder, of the firm of Schwabacher & Co., who returned from San Francisco on Friday. Mr. Neufelder denied going to San Francisco specially on this sugar question. He and J. R. McDonald, of Fisher & McDonald, were asked by the Jobbers Association to see the San Francisco people and arrange to stop the Vancouver people from breaking the market. Mr. Neufelder said he did not see Spreckles personally, but saw his secretary, which was the same thing.

"The result of our conference," said Mr. Neufelder, "was that the Western Sugar Refinery Company will make no changes in the sugar rates at present. An understanding has been reached between Spreckels and the Vancouver people to the effect that the Vancouver people have withdrawn from this market, which covers the entire Sound district."

When asked for a reason for this break on the part of the Vancouver people, in view of the enormous British capital said to be behind that corporation, Mr. Neufelder smilingly answered: "Capital cuts no figure in the matter. You can readily see that if the Vancouver people had not drawn their quotations from our market the Western Sugar Refinery would have invaded their market; the result is obvious."

OUR OTTAWA LETTER.

A POLITICAL CRISIS ALMOST WITHIN SIGHT.

Mr. Abbott Has Work to Form a Cabinet —An Old-Time Avowed Annexationist to Lead the Loyal Conservatives—The Treasurer of the C.P. Scandal Fund.

From Our Own Correspondent.]

OTTAWA, June 15.—The death of Sir John Macdonald has thrown dismay in the Conservative ranks. This was to be expected. The idea of the deceased Premier was to keep such men around him as his political associates as he could easily control. In fact, it has been said of him that he was wont to say that the proper material to select for a cabinet was such men as he could at any time, if necessary, place in the penitentiary. Another, although not probably a reliable authority, tells us that when the late Premier made a new appointment to his ministry the incomer gave his leader a letter, not dated, of resignation, so that in this way he had his colleagues thoroughly under his control. While all this savours of exaggeration it goes to show plainly how fully the departed statesman had his associates in the Government under his thumb. The man who opposed Sir John Macdonald at the council chamber was quickly provided for elsewhere with a position or sent adrift on the stormy sea of political strife. There are numerous instances of this kind but it is unnecessary to mention them at the present time. It is sufficient for my purpose to show that their was good reason for expecting trouble in the ranks, once the man who took sole charge of the ship of state had disappeared forever from the helm, when one looked upon the calibre of the crew he left behind.

THE NEW PREMIER.

The Hon. J. J. C. Abbott will be a mere figure head, and the duty of running the political machine will fall to Sir John Thompson. Mr. Abbott will be nominally Premier and lead the Senate; Sir Hector Langevin will be nominally accorded the honor of leading the House of Commons, but to the Minister of Justice will devolve the real leadership of the popular chamber as well as the real leader of the party. This will be all the changes in the new government with the exception of Mr. Chapleau, who is to-day on strike for the Railways and Canals department, which is not likely to be given him, but who to-morrow is apt to get out of the sulks and go back to his old position as Secretary of State. This is an old habit of Mr. Chapleau's and those who have closely watched political events at the capital have ceased to pay any attention to the striking propensities of the ex-Secretary of State. The time was when the political world did believe that when Mr. Chapleau threatened to resign he meant it, but they have so often seen him say so and again submissively yield that now they place no confidence in his protestations. However, as he is at the present moment master of the situation, and is in a position to wreck the party if he does not get his demands, the matter may be somewhat different. The one thing that may prevent him from doing this is that he will get no encouragement from the Liberal party. Mr. Laurier is preparing now to cross the floor of the House and will do so without the aid of Mr. Joseph A. Chapleau. Of course the Liberals will not object to any services rendered by Mr. Chapleau to attain this object, but I have it on the best of authority that he will not be asked for any, far less will he get any promise of recognition when the time comes—as soon it must—when Mr. Laurier is engaged in the easy task of forming a cabinet.

THE DISLOYALTY CRY.

The appointment of Mr Abbott even as a figure-head Premier is a great setback to the loyalty section of the Conservative party. It is well known that the first man to sign the annexation manifesto in 1849 was J. J. C. Abbott. If the Liberals read this manifesto every day after prayers in the House of Commons it would surprise nobody. At any rate occasional reference will be made to this precious document between now and prorogation day. Again Mr. Abbott was treasurer of the Canadian Pacific scandal fund, about the only two things that brought him prominently before the public. While he sat in the Commons as representative of Argenteuil he was never known to take any part in any of the debates in the House. He occassionally gave his opinion on legal questions, but beyond this he had little to say. He was entrusted to steer many public and private bills through Parliament and was pretty successful in doing so. His connection with the Canadian Pacific was such that in later years, after several Opposition members had called attention to it, that he refused to vote on legislation affecting that company. The first time he gave his reason for not voting brought a (hear, hear) from Mr. Blake. It may not be generally known but it is worthy of mention that Mr. Abbott was the solicitor who drew out the Canadian Pacific syndicate bargain with the Dominion Government. All the ingenuity and skill that Mr. Ed. Blake and other prominent lawyers in the House could bring to bear against this bargain, they could not find one flaw or error in it, notwithstanding the stereotyped saying that one could run a coach and four through legal documents. Everything contained therein was in favor of the syndicate. It was therefore little wonder that Mr. Abbott should have since retained the confidence of the men who formed that syndicate, and who are to-day the heads of the Canadian Pacific Railway. Beyond these things I have just mentioned Mr. Abbott is entirely unknown outside of Montreal, for which city he was at one time Mayor. To the people of Ontario he is an entire stranger, and that the Conservative party were driven to this extremity to seek a leader shows the utter barrenness of anything like leading statesmen among their ranks. Looking across the floor of the House at the men who sit alongside Mr. Laurier, comparisons would be, as Mrs. Partington would say, "odorous." Any one but a bitter partisan must admit this fact.

THE OUTLOOK.

View it in whatever way one may, the outlook for the Conservative party is a mighty poor one. The work of disaffection is going on, and it will continue to grow until the party which the late Sir John Macdonald so often brought to victory is driven into sections and fragments which will make it unrecognizable. The men of political thought in the party ranks admit this, and therefore they are clamoring for a coalition government. That is about the last thing that an Opposition so strong and united as the present one would think of. Other Conservatives not only recognize the fact, but are willing to express it, that since the death of Sir John Macdonald no one is to be found to fill his place, and sooner or later, more likely sooner than later, Mr. Laurier will be called on by His Excellency to form an administration. Apart from all party triumphs, the country will have reason to rejoice when that time comes, as it will mean the adoption of a policy which will bring with it general prosperity to the whole Dominion, instead of to the favored few, and consequent happiness to all classes in this fair Canada of ours.

SLABTOWN.

A FOOLHARDY RACE.

Two Sea Captains Start in Fifteen Feet Boats to Cross the Ocean.

BOSTON, June 22.—Many people went down to Crescent Beach yesterday to see Captain Lawler in the little cockleshell Sea Serpent, and Captain Andrews in the other little cockleshell Natilla, start on their ocean race. The race was postponed from last Sunday because there was not enough people to witness the start. The boats were sent off from the main pier at 3 o'clock p.m. in the teeth of a strong easterly gale. They beat out of the bay and by dark were well out on their way to Landsend, the terminus of the perilous ocean race. The boats are 15 feet long and will have only their respective captains aboard. Of course each one looks for a victory. Capt. Lawler has just completed the Sea Serpent. He has fitted her with everything to make his trip as comfortable as possible. He expects to make the trip in sixty days. There was considerable betting on the result of the race at the pier, as the boats started. The general impression is that Andrews will win. He made a similar voyage a couple of years ago.

A TRADE ALLIANCE.

Central European Nations Form a Great Commercial Union.

BERLIN, June 22.—That the formation of a great Central European customs league is an accomplished fact is acknowledged in official circles. The exchange of communications between Germany, Austria, Hungary, Italy and Switzerland has resulted in a basis of agreement which became known here to-day. The interest in the realization of the most formidable zollverein ever conceived will overtop that in every other public matter when the scheme is generally published. In the meantime, the official circle alone knows that these negotiations have attained a definitely successful stage. The terms upon which the commercial union was agreed are meant to be held secret until after the plenipotentiaries prepare a draft of the treaty. A conference for this purpose has been arranged to meet at Berne, July 20. The league is to be an intimate commercial alliance, in which no one of the contracting powers will be privileged to form a trade treaty with any other outside of the union, unless it first obtains the assent of the other parties. It is understood here that the government has obtained the consent of the federal states of Germany to renunciation of the treaty of Frankfort and to accepting whatever grave consequences may arise from the hostility of France to such a course. The existence of the league will naturally affect the trading relations of the contracting powers with France, England, the United States and every quarter of the globe. How far this independent action will be controlled depends upon the nature of the decision of the Berne conference.

ITALIAN CUTTHROATS.

The Mafia in St. Louis—One Faction Warring Upon Another.

ST. LOUIS, June 22.—Thirty-two Italian laborers fled from Contractor Warplay's camp, at the Chain of Rocks early on Saturday morning, leaving their luggage behind in their flight. They report a reign of terror there, due to a feud among the men, and a diabolical assassination on Saturday night. They say two of their number had disappeared, and they were believed to have been murdered. Contractor Warplay is doing some of the work on the new water-works contract, just inside the city limits. There are six hundred laborers employed in various parts of this work. Warplay has about a hundred Italians in camp. Some of these came from New Orleans shortly after the Mafia troubles there. The Italians were divided into two factions. At the head of one faction was Mentinia, the Italian cook at the camp. He is said to be a small, wiry man, but makes up for his small physique, according to the Italians in the city, by an extremely ferocious disposition. His followers are of a similar type. The second party looked to Juen Mantileno as a leader. Religion had something to do with their hatred; besides this they were divided about the Mafia. On Saturday night these differences reached a crisis. Shortly after midnight Mantileno was awakened by someone at his bed, and as he arose and cried out, a stiletto was thrust into his head. The assassin fled, and Mantilino aroused his friends. While the wounded man was being attended to in his tent, several others were heard from the dark ordering him and his followers to leave the camp, and not to return on pain of death. There was great commotion, but the Mantilino faction fled, coming to the city in great terror, and telling the police their story.

Because She Would Not Marry Him.

WATERBURY, Conn., June 22.—Geo. Laundry, an employee of the Matthews Williard Co., tried to kill Miss Annie Corrigan on West Main street, last Saturday night. Thinking he had succeeded, he reloaded his revolver and emptied five chambers into his own body. He saw the young woman down town in the company of Gordon Clark and Annie Moran, and followed her all the way home, nearly a mile. When the girl and her companions took seats on Miss Corrigan's verandah, Laundry approached Miss Corrigan and asked her to take a walk with him, but she refused. He then asked her for a kiss, which Miss Corrigan granted him. He then urged her to marry him. This she refused to do. Laundry thereupon pulled out a revolver and fired right at the girl's head. The bullet grazed her left ear and she fell in a swoon. The brute then planted his foot on her prostrate body and aiming at the heart fired a second shot. He then shot himself as stated. Doctors say that he cannot possibly recover. He met Miss Corrigan some weeks ago and at once became infatuated. She never liked him and as much as possible repelled his advances. The affair may impair her mind, it is feared.

The Purest and Best

articles known to medical science are used in preparing Hood's Sarsaparilla. Every ingredient is carefully selected, personally examined, and only the best obtained. The medicine is prepared under the supervision of thoroughly competent pharmacists, and every step in the process of manufacture is carefully watched with a view to securing in Hood's Sarsaparilla the best possible result.

A Lucretia Borgia.

INDIANAPOLIS, Ind., June 22.—The finding of the poison in the stomach of Mrs. Maneh Wright, and the numerous rumors afloat regarding the death of other members of her family, have determined Coroner Manker to make a thorough investigation. The first steps will be taken to-day when the body of Mrs. Taylor will be examined, and the contents of the stomach analyzed. It is no longer a secret that Mrs. John Dorsey, a daughter of Mrs. Taylor, and a sister of Mrs. Wright, is suspected of poisoning both of the women, and although the police will make no arrests until the result in Mrs. Taylor's case is known, Mrs. Dorsey is under surveillance and will not be allowed to leave the city. Mrs. Dorsey is now living with her fifth husband, and it is said that each of the four whom she survives died with symptoms similar to those observed in the cases of Mrs. Wright and Mrs. Taylor. The lives of her husbands and of her mother and sister were insured. Mrs. Wright left one child and Mrs. Dorsey asked to be appointed guardian, but the coroner interfered and the appointment was not made. He told Mrs. Dorsey plainly that she was suspected of killing her sister. Her reply was that her conscience was clear.

The Chilian Rebellion.

IQUIQUE, June 22—A revolt has taken place among President Balmaceda's troops at Coquimbo, and four officers were killed. Eight hundred men are said to be marching to Caldera to join the congressional army. It is also stated that the Esmeralda has destroyed the wharf and railroad at Labkoo Island, thus preventing shipment of guard by Balmaceda.

Supreme Lodge A.O.U.W.

DETROIT, June 22.—At the annual election of officers of the Supreme Lodge of the Ancient Order of United Workmen, on Saturday, J. W. Kingsley, of Helena, Mont., was elected supreme master; J. W. CURES DYSPEPSIA.
DEAR SIRS,—About a year ago I had a very bad attack of dyspepsia. For nearly four months I never ate a meal without suffering pain after. I kept getting worse and worse until I was obliged to give up my duties as a teacher. I had got so weak I could scarcely walk, when one day I saw an advertisement for B.B.B., and thought I would try a bottle; I did so, and before I had finished it I was able to teach again. Four bottles cured me completely. MISS JANET STUART, Muskoka Falls, Ont.

CURES BILIOUSNESS.
DEAR SIRS,—I was troubled for about 35 years with Bilious complaint, and after using about three bottles of your Burdock Blood Bitters, I feel entirely relieved, and have not had an attack for the last two years. JOSIAH GAMEY, Maxwell, Ont.

In 49 Cases Out of 50
B. B. B.
CURES BAD BLOOD.
GENTLEMEN,—Last fall I had boils very bad, and a friend advised me to try B.B.B., and so I got a bottle, *the effect was wonderful*, the boils began to disappear, and before the bottle was done I was totally cured. As an effectual and rapid cure for impure blood, Burdock Blood Bitters cannot be excelled. JESSE JOHNSON, Rockwood, Ont.

In 99 Cases Out of 100
B. B. B.
CURES CONSTIPATION.
DEAR SIRS,—I was troubled by costiveness and sick headache, and in fact felt very miserable until I tried B.B.B. I used seven bottles with Burdock Pills also, and they made me as well as ever I was. This was about two years ago and I still enjoy the best of health. MRS. A. MCCULLOUGH, Digby, N. S.

Even in the Worst Cases
B. B. B.
CURES SCROFULA.
SIRS,—Two years ago I was troubled with an ulcer on my ankle; having used B. B. B. for bad blood I procured a bottle, and a box of Burdock Healing Ointment; after using three bottles and three boxes I was completely cured, and can recommend it everywhere. Yours truly MRS. WM. V. THE CRY OF MILLIONS

OH, MY BACK!
STOP IT NOW,
SOON IT WILL BE TOO LATE.

I have been troubled many years with disease of the kidneys and have tried many different remedies and have sought aid from different physicians without relief. About the 15th of April I was suffering from a very violent attack that almost prostrated me in such a manner that I was bent over. When I sat down it was almost impossible for me to get up alone, or to put on my clothes, when kind Providence sent Dr. Henley, with the OREGON KIDNEY TEA, to my hotel. I immediately commenced using the tea. It had an almost miraculous effect, and to the astonishment of all the guests at the hotel, in a few days, I am happy to state, that I was a new man. I will recommend the tea to all afflicted as I have been.

BEHRING SEA.

The American Commercial Co., not approving of the *modus vivendi*, has invited the attention of the treasury department at Washington to consider their side of the case. The attention of the treasury department is invited in the shape of a protest, in which the following alleged facts are set forth:

"The company invites the attention of the secretary of the treasury to the fact that the islands of St. Paul and St. George are in the undisputed possession of the United States, and that the right of this government to dispose of fur seals born on said islands has never been questioned. This being so, the company assumes that the right of the United States or its lessees to take fur seals on the said islands within unquestioned jurisdiction is beyond dispute, and not subject to interference by any foreign state. The right of this government to take fur seals on its own territory is not one of the questions to be admitted to arbitration." * * * *

"If it be assumed that the eastern portion of Behring Sea is not marine territory of the United States, but is "high seas," the company submits that it is not competent for Great Britain and the United States or any other two governments to determine who shall be permitted to navigate these waters, or to prohibit fishing or taking seals on the high seas, and the company points out that its rights have been overlooked by the agreement, thereby inflicting severe loss upon the company, in order to obtain the consent of England to arbitrate the question as to the right of Canadian poachers to destry the fur seal industry by pelagic fishing."

In the last clause rests the gist of the whole contention. If the eastern portion of Behring Sea is not marine territory of the United States, but is "high seas" neither the United States nor Great Britain are competent to decide who shall be permitted to navigate these waters, fish or take seals in them, etc. This is the position the TIMES took in the matter a week or so ago. No two nations are competent to decide who shall navigate and fish or seal on the high seas. The act of Great Britain and the United States is an usurpation and that is all that can be said about it.

THE ENCYCLICAL.

Our contemporary, in discussing the Pope's Encyclical, takes occasion to point out that the Pope favors the individual ownership of land. This is a drive at the Georgeists. But why did not the Pope put the seal of his disapprobation on the monopoly of land? The Georgeites are what they are from force of circumstances. Where the land is owned in severalty Georgeists are few and far between. It is where the land is monopolized that the single taxists most are found. Thus, there are more Georgeists in the United Kingdom than there are in the United States. We do not understand that the Georgeists dispute the right of the individual to dispose of his earnings as he will, even to the purchase of land. It is the system that permits land monopoly that the Georgeists condemn, and for which they see no remedy except in the naturalization of the land.

On the whole, the Church has simply put itself on record as to its attitude upon certain leading questions of the day, questions that there would be no occasion to deal with had men practiced the simple precepts of the Golden Rule.

In respect of the relations of the State towards the parent the Encyclical has the flavor of medievalism. In Europe the State is represented by a crowned head and certain other individuals possessed of the hereditary right to rule. In this country, however, the State is the people. How, then, is it possible for the State to trench on the prerogatives of the parent? In Europe, where the State is represented by a certain favored few, we can understand that there might be a usurpation of individual rights; but in this country, where the State is of the people, by and for the people, exists by virtue of the consent of the people, it is difficult to understand how the State can trench on the prerogatives of the parent in any particular. Says the Encyclical:

"Now a State chiefly prospers and flourishes by morality, by well-regulated family life, by respect for religion and justice, by the moderation and equal distribution of public burdens, by the progress of the arts and of trade, by the abundant yield of the land—by everything which makes the citizens better and happier."

Exactly. But how is all this arrived at except by the people? If the people are moral will not the State be moral? Is it possible where the State is of the people to conceive of a moral people and an immoral State? The State, as we know it, has no more volition of its own than has the steamship or any other machine. The State is but a machine created by the people to carry out their behests the same as a steamship is created to carry freight and passengers. Under our system of Government the state is as powerless to usurp any political or parental function as the boiler is incapable of generating steam without the aid of water and fire. If the Encyclical had discussed the rights of minorities it would have touched the really vital spot of this question of education. Minorities certainly have rights. What they are it is superfluous to discuss; but after all the principal of majority rule is sound, whatever may be the susceptibilities of the minority. The Encyclical, however, is a valuable expression of opinion. People will do well to heed it.

STOCK WATERING.

Stock watering is a peculiarly American institution. It first saw light in 1808. In December of that year, says a writer in the North American Review, the directors of a certain railway company passed a resolution doubling the stock of their corporation. This act was in direct violation both of the corporate charter and of the general railroad law of the state, and in January, 1869, a powerful corp of railway lobbyists was employed by the officials of that corporation to push through a corrupt Legislature the needed legislation to give life to a deliberate violation of the laws of the State. From the date of this colossal offence against public policy and honest commerce, the abuse of stock-watering has assumed gigantic proportions. According to the last Poor's Manual, the United States had in operation on December 31, 1890, 161,896.64 miles of ordinary steam surface railroads, which cost, on paper, $9,931,453,146. These are very startling figures, and it is perfectly safe to assert that two-fifths of that amount, viz., $2,972,481,368, represents "water." The street railroads of the country, horse, cable and electric, could not have cost, including equipment, $110,000 per mile, but they are stocked and bonded up to over $400,000; and the elevated roads in New York city, which cost less than $17,000,000, are stocked and bonded for more than $60,000,000. Within the last twenty years many of the great manufacturing industries have merged themselves into corporations or associations, which are called trusts. These, also, are capitalized for at least three times their actual value.

"My estimate," continues the writer, "of these unwarrantable and dishonest over issues of stocks and bonds is $5,000,000,000, which constitutes an indirect mortgage upon national products and labor of the whole country; and there is a constant struggle, against public welfare and prosperity, to extort from patrons and consumers prices which will pay interest and dividends upon these fraudulently-issued obligations. Corporate bonds are unknown to the laws of European countries. In those older civilizations all stock or debentures issued by railway corporations are sold for face or par value; and if any were issued by officials for less than the stated values, the officials issuing, or rather attempting to issue, them would be arrested for a crime, tried, convicted, and punished as felons." And yet there are newspapers which argue that the Farmers' Alliance and the producers in the United States generally have no grievance against railways.

EDITORIAL NOTES.

Sir JOHN GORST, political secretary for India, has resigned. Before sending in his resignation, it devolved upon him to defend the Indian Government in relation to the Manipur affair, and in so doing he characterized the Senaputty as a man of brains, whose only crime was independence, a judgment most people will concur in, seeing that after all the Senaputty simply beat the Indian Government at its own game, albeit, unfortunately, innocent men were the greatest sufferers. But that which more particularly rasps on Tory susceptibilities, and which at the same time indicates how close is the band of sympathy between British patricians and British plebians is, that Sir JOHN GORST, Tory, is in the habit of hobnobbing with TOM MANN. MANN and GORST are both members of the Royal Labor Commission, which is composed, with perhaps an exception or two, of philanthropic aristocrats, men who are considerate of working people much after the fashion that a man is considerate of his horse or his dog. These aristocratic philanthropists, however, fight as shy of MANN as does the devil of holy water, says a correspondent, and their disgust at Sir JOHN GORST'S behavior can be imagined. MANN, probably, is as able a man as there is on the Commission, but these philanthropic pig-heads would treat him as a nonentity. A delectable Labor Commission that. The report it will make can be anticipated.

The Montreal Gazette takes Mr. FARRER, of the Toronto Globe, to task as a prophet of evil. "Almost every number of the Globe, says the Gazette, that comes to hand contains something so evidently from his pen as to satisfy all of its authorship." The Gazette has especial reference to an article appearing in the Globe to the effect that in "Ontario and Quebec, hay was light, fruit was injured, wheat, oats and roots were in danger; the reliance of the people would have to be on cheese and cattle, and even these would not be up to the average." The TIMES does not endorse all of Mr. FARRER'S methods. It cannot believe that his intense and consecutive pessimism is justified. The Gazette, however, in endeavoring to squelch the gentleman ought to consider his statements worth disproving. If, in Ontario and Quebec the hay crop is not light, and wheat and oats, fruit and roots are not in danger, why does not the Gazette say so? If FARRER has lied as to these matters the Gazette ought to be able to prove it. This the Gazette does not undertake to do. The best, and in fact the only way to squelch FARRER, is to prove him a liar.

QUOITS.

Lovers of the good old game of quoits were much interested in a match which was contested on Saturday afternoon at the Lion Brewery grounds, Spring Ridge, between I. Gandy, A. Marrion, and J. Stewart, resulting in a clean walk over for Mr. Gandy. The terms of the match were as follow: Gandy played Marrion 21 points, and Gandy won by 9 points; Stewart played Gandy, and Ike won again by 11 points. Mr. Gandy is really a good pitcher. Mr. Marrion also throws a good quoit, but excitement gets rather the better of him. Mr. Stewart was not in his usual form, and he much surprised his friends at being so far behind. Mr. George Fairbrother, the worthy host of the Lion Brewery tavern, who is always to the front where sports are concerned, has again come out of his shell and resuscitated a good "Old Country sport." Another good match is expected next Saturday.

LACROSSE.

The Victoria lacrosse team visited New Westminster on Saturday to play a game with the team there. The play was good on both sides, but the Westminster team won the match with four straight games in twelve, twenty, nine, and seven minutes respectively. Although the score shows a one-sided match, the play was good throughout and would have been won by Victoria if there had been more team work and less individual playing.

THE OAR.

Muirhead, Peterson's backer, arrived from San Francisco on Saturday evening last, and left on Sunday for Westminster, to try and arrange a match with McLean. He said he did not consider the Fraser River a fair course for Peterson but said his man would row McLean on any other course.

Deasy and Smith rowed a close race on Saturday evening, the former winning in 24 min. 7 sec.

THE GUN.

The following scores were obtained at the Union Gun Club shoot held on Saturday:

J. C. Maclure	22
F. Hewlings	19
H. N. Short	17
B. John	16
Charles Todd	14
J. P. Falls	13
C. F. Jones	14

BASEBALL.

The game that was the centre of attraction at the hill on Saturday was a well contested match between the V.A.C.'s and the Bays. After a splendid game the V.A.C.'s won with a score of 10 to 6.

The Oakdales beat the Bluebells by a score of 16 to 14.

CYCLING.

The race for the Bourchier medal was run at the Hill on Saturday afternoon and won by Piper in 19 minutes. Sherwood, Jeffree and Tiedeman, who also entered, pressed Piper hard and kept the lead until after the first mile, when Piper showed his superiority and won easily, Jeffree second.

CRICKET.

The game played on Saturday, Victoria vs. Naval Services, was won by the latter with 78 to 27.

Inland Items.

From the Sentinel.

Mr. A. F. Stewart, C.E., and Mr. G. L. Betts, C.E., started from town on Thursday, in the interests of the C.P.R. on a three month's tour through the North Thompson region on an exploration scheme. They left with a pack train of seven horses. It is confidently expected that they will be able to report most favorably on the wealth of the district. The explorers will cover the ground from Clearwater to Quesnelle.

From the Kootenay Star.]

Mr. J. W. Thomson came back on Thursday from a visit to the Okanagan country. He reports the outlook as very promising there and did a big business in taking orders for fruit trees. All he sold last season are doing splendidly, and fruit culture in the "Garden of British Columbia" promises to be a prominent industry.

Geo. Laforme and Ed. Pinnet came down from the Big Bend Saturday. They report that the Smith Creek boys are doing splendidly, much better than they have ever done before. This season they are certain of good pay, and prospects generally are most encouraging.

Assistant Commissioner of Lands and Works Fitzstubbs, has decided to let the work of improving the road from town to the station by the day, making such improvement as the appropriation of $1000 will allow. This plan meets with general approbation of the citizens.

Fourth of July Rates.

As usual the Union Pacific will sell tickets from all stations to neighboring cities at one fare for the round trip. Call on or write to me for particulars. M. J. Bissett, agent Union Pacific System, Victoria.

Well Preserved.

One of the old wooden water pipes that used to supply the city with Spring Ridge water was unearthed to-day on Johnson street. Although over 30 years old the pipe was almost as good as new, time having caused it to rot very slightly.

The Place to go to.

To make room for our new stock of goods that is coming, we will sell the stock in hand consisting of gent's furnishing, etc., at prices that have no equal. Our children's jersey suits will all be sold at cost. Lion Gent's Furnishing House, 74 Yates street.

Yesterday in the Park.

The music at the Park yesterday afternoon, under the direction of Mr. E. Pferdner, was of the same high standard that this band has been giving to the public for several weeks. During the afternoon several thousand people were in the park.

Expected Home.

Rev. Donald Fraser, of the First Presbyterian church, who has been east is expected back on Thursday evening. On Friday evening he will be tendered a welcome by the congregation in the church. A splendid programme will be presented besides a strawberry festival.

Y.M.I. Election.

Seghers Council No. 85, of the Young Men's Institute, will hold an election of officers in their hall this evening. It is requested that every member of the council be present as besides the election there will be several other matters brought up for decision that will effect every member

Due From the Orient.

No message has yet been received from Bonilla Point in reference to the s.s. Empress of Japan. The captain received orders to try and make Royal Roads by daybreak so as to have a daylight trip between here and Vancouver. It is probable that she will arrive early to-morrow morning.

Legal Work in Chambers.

The following matters came up before Mr. Justice Drake in chambers this morning: In re Jessop vs. De Cosmos, to reconsider mortgage; summons dismissed with costs. Armstrong vs. Haggerty, garnishee order made absolute. Swarm vs. Byran, summons dismissed for want of prosecution.

Improved Taste.

The Indians of Comox are steadily becoming more civilized. At a potlach held on Friday last, attended by all the Indians from up and down the coast, there was a big dance and theatrical performance. The stage was a rudely improvised structure in the open air, with curtains and screens in imitation of the genuine article. As to the histrionic talent of the Comox red man, our informant is silent.

Arrived from 'Frisco.

The steamer Walla Walla arrived from San Francisco last evening shortly after 10 o'clock. She had 225 tons of local freight and the following passengers for Victoria: Miss A. C. Doane, Miss McLeod, Sadie Cain, Sadie Clement, Miss E. Martin, C. J. Martin and wife, F. Featherstonaugh, L. Dansereau, J. M. Lewis, J. Rubens, G. Rubens, A. H. Cambell and wife, O. M. Turner and wife, J. Balzano.

St. Andrew's Choir Festival.

The St. Andrew's Choir strawberry-musicale promises to be one of the most perfect affairs of the kind ever given in this city. The choir itself has no superior in the city, and under the direction of its talented leader, Mr. Frank Fenwick, a programme may be looked for which will meet the approval of the most fastidious musical ear. As for the strawberries, they, of course, will speak for themselves.

The Proposal Discussed.

A committee of the Board of Aldermen met the council at the Board of Trade on Saturday evening when the proposal to turn the old French Hospital into a home for the poor and destitute was discussed. No definite conclusion was arrived at, however, but the Aldermen will inspect the premises to-morrow and report upon the same at the next meeting of the council. There are prospects of steps being taken immediately to have the home established.

The B. C. Paper Mill.

A meeting of the directors of the B. C. Paper Manufacturing company was to have been held to-day, but on account of the absence of several of the directors it was postponed. The provisional directors of the company are Joshua Davies, W. P. Sayward, Thos Shotbolt, J. S. Yates, W. Hewartson and H. Carmichael. As soon as all the directors return a meeting will be held to make final arrangements for starting the mill. A large amount of the stock has already been suscribed.

A Fatal Ship.

A letter received from Scotland mentions the death of Capt. Robertson, of the bark Mennock. The captain took ill and became blind three days after leaving this port and died about three weeks before the arrival of the Mennock in England. The bark carried a cargo of salmon, under chartar to Turner, Beeton & Co. She will be considered by the sailors an unlucky ship, as every voyage of the last three, a death has occurred. On the former trip to England Capt. Chalmers' wife died, and on the repurn voyage to Victoria Capt. Chalmers died. Captain Robertson had many friends here, who will be pained to hear of his death.

Merchants Luncheon.

From 11:30 until 2 o'clock and Lowenbrau at the Bank Exchange.

Go to Tom Graham's

For bargains in Clothing and Gent's Furnishings, next to Cheapside, Government street.

Gas Fixtures.

Braden & Stamford have just imported a fine lot of gas fixtures which every one should see before going elsewhere.

To Look After the Lepers.

The steamer Alert, with Ald. Holland, Dr. Milne, Sanitary officer Bailey and a Chinese interpreter on board, left for Darcy Island at 3 o'clock this afternoon. They will make arrangements with the best of the lepers to act as caretakers, and also see that all are comfortable.

Going to Alaska.

The steamer Queen, Capt. Carroll with another full load of excursionists is expected from the Sound about 4:30 this afternoon. The passengers will be given until 9 or 10 o'clock to look around the city, after which she will proceed to Alaska. A large number are waiting to join her at this port.

Social on Friday Night.

The Knights of Pythias have arranged to give a social in their hall on Friday night next. The entertainment will be for the members and their invited friends, and the programme will consist of recitations and music, followed by refreshments. Miss Annie H. McDermid, the popular elocutionist of Seattle, will be present, and give some of her laughable character sketches.

Bridges' Will.

The jury on Saturday gave a verdict for the plaintiff. Turner, thus establishing his claim to the valuable tract of land in North Vancouver, at present held by Powers and others. The case has been a long and interesting one. The plaintiff now proposes to attack the title to several sections of land adjoining the Bridges lot, on the ground that the provisions of the Land Act have not been complied with.

Mail Changes.

The Northern Pacific steamer Sehome started to run on the new time table yesterday. She left here at 7 a.m. yesterday and returned at 5 a.m. this morning and left again at 7 a.m. This will be her time for arriving and departing until further notice. It will necessitate a change in the Sound mails which will now close at midnight and arrive early in the morning. The Olympian is expected over on Saturday to take the Sehome's place.

Ashfelt or Adler.

A recent issue of a San Francisco paper gives a not very complimentary report of the character of the man Ashfelt, who recently acted as prosecutor in a case against two men charged with obtaining $170 from him by fraud, in a game of cards. The item says Ashfelt is undoubtedly a man named Adler, who had to leave San Francisco for robbing a woman of $300. The police think the paper has hit the nail on the head as Ashfelt left the city rather unceremoniously.

Police Court Notes.

In the police court this morning there was a miscellaneous assortment of male and female Chinese charged with a miscellaneous number of offences, but owing to the prosecution not being ready for trial the cases were all remanded. After the common drunks were fined $5 each, a hack driver was assessed $20 for being drunk and fighting. Leo Dessop had the nerve to stand up before the court and plead guilty to being an habitual frequenter of houses of illfame and paid $25 for leading such a life.

Foul Drains.

Some of the box drains around the city badly need cleaning out and if it is not done the rising generation will suffer. On Pandora street, near the Jewish Synagogue, is one of the localities that ever smells vile, but it is worse and almost impassable at present. Not a stone's throw away from this, a child is laid up with typhoid fever, and who cannot say the bad drains in their neighborhood is the cause. The city should have these drains flushed during the summer months and save all the trouble they cause.

Mount Tolmie Bus.

The transfer bus will make regular hourly trips from the Jubilee Hospital to Mount Tolmie Park and return, leaving the hospital on the even hour, from 10 a.m to 5 p.m., inclusive, always giving a full hour at the park, and making close connection with the tram on the return trip.

Regular fare, 10 CENTS each way. Visitors or intending purchasers can get free tickets by applying to H. E. Croasdaile & Co., head agents, 42 Fort street, Victoria.

Changed her Time.

By reference to the time table of the C.P.N. Co. in another column, it will be seen that commencing to-morrow morning the steamer Islander will leave Victoria at 2 o'clock, a.m., instead of three o'clock as heretofore, connecting at Vancouver with the train leaving at nine o'clock for New Westminster, Mission, Somenos, and New Whatcom. At the latter point close connection will be made with the steamers Eastern, Oregon and Premier for Seattle and Tacoma. Passengers leaving here by this route at Vancouver will reach Seattle at 9:30 a.m. The Islander will leave Vancouver at 1 o'clock p.m., daily except Monday, on which day a steamer will leave New Westminster at the same hour.

Doctor Seward's Assistant Arrives.

Prof. Burnbridge, who has recently returned from a three months' trip to South America, arrived in Victoria yesterday, and will at once take up his work as assistant with Dr. Seward, the celebrated optician of New York, now visiting this city.

Although Dr. Seward's practice is increasing, after seventeen weeks' successful practice, yet he must close his office here on Saturday evening of this week, in order to keep his appointments in other cities.

The Nanaimo office will open in the Windsor Hotel on Monday morning next, and, after a brief stay there, Vancouver and New Westminster will be visited for a short time before returning to New York.

If there are any who desire to have eyeglasses or spectacles adjusted before the doctor leaves, they should see him without further delay, at his office, corner Yates and Douglas streets.

H.M.S. Nymphe Sails Friday.

The British warship Nymphe will sail for Behring Sea on Friday, under orders direct from London in regard to the action to be taken against the sealers. Captain Turner, of the Nymphe, has kindly offered to take a sack of mail with him and deliver it to the different sealers, as he meets with them. This will give the owners, or anyone else, a chance to communicate direct with any one on the sealing vessels. Collector Milne notified both the Minister of Marine and the Minister of Customs at Ottawa, of the time fixed for the sailing of the Nymphe, but has received no instructions from them as yet.

Two Government Officers.

Mr. Fred Hussey, Government agent for Yale district, but who has been promoted to the position of superintendent of police, with headquarters at Victoria, was given a farewell dinner by his friends and presented with a substantial token of their esteem and appreciation of his services. The token was in the shape of a valuable solitaire diamond ring. The bauble was well merited. Mr. Hussey was a faithful and efficient officer, and one who administered his office with an urbanity that made him extremely popular. In appointing him superintendent of police, the Government could not have made a better selection. Mr. Hussey's successor at Kamloops, Mr. Geo. C. Tunstall, succeeds to a position he formerly held. When the Granite Creek excitement broke out a thoroughly experienced man was required to assume the management of affairs in that section and Mr. Tunstall was appointed to preside. The appointment at the time was a promotion. Since then Yale district has increased in importance and it so comes about that in succeeding Mr. Hussey Mr. Tunstall is promoted again. Mr. Tunstall in resuming his former place at Kamloops brings with him a wider experience of affairs than ever and is without doubt one of the most popular men in the interior.

The Emerald Duet.

The schoolroom of the First Presbyterian Church was crowded to the doors yesterday afternoon to listen to the temperance revivalists, the Emerald Duet, Messrs. James P. Smith and Harry A. Webb. These gentlemen have come to the city highly recommended, and are working under the auspices of the Royal Templars of Temperance. The meeting yesterday afternoon was addressed by Mr. Smith, who gave an account of his past life, during which time many wet eyes were seen in the audience. The pieces they sang delighted the audience, and are sure to be the means of drawing large crowds out every evening they are here. Mr. Smith has a very heavy baritone voice and Mr. Webb has a tenor voice, which will be appreciated by all who hear him. The meetings on Monday, Tuesday and Wednesday evenings will be held in the same place at 8 o'clock, when the Emeralds will give short addresses and sing many interesting pieces. No one should miss the opportunity of hearing them. On the platform were noticed Mrs. Grant, president of the W.C.T.U., Mrs. Siddall, of the Rescue Home; Revs. Watson and White; Mr. McClure, Chief of the Good Templars; Mr. J. Woodside, of Port Arthur; Mr. L. A. Maguire, of Vancouver, and several others.

Graves of Their Dead Decorated.

The Knights of Pythias of Victoria, yesterday paid a beautiful tribute to their departed dead. A 2 o'clock about fifty members of the order assembled at their hall on Government street, each carrying boquets or baskets of flowers. A line was formed and they marched to Ross Bay Cemetery, followed by a carriage filled with flowers. Their object was to decorate the graves of their deceased members, five of whom were buried in this cemetery. On entering the ground they first proceeded to the grave of Richard Hunter, and after arranging themselves around it they stood with uncovered heads, while Past Chancellor J. H. Hughes read the first part of the burial service from the ritual of the order. Flowers were then placed on the grave and they passed on to the graves of George Fry, David F. Fee and Frank Campbell, which were all decorated in the same way. When they reached the grave of George Slater, who was the first knight to be buried in this cemetery, Past Chancellor Hughes read the last portion of the burial service before flowers were spread over it. A large number of the friends of the order and the deceased attended the decoration exercises and but one thing marred the solemnity of the occasion. On the return home it rained, causing every one to get thoroughly wet.

Meeting of the Senate.

The first meeting of the Senate of the University of British Columbia will be held in Victoria, on Thursday, July 2nd, at 11 o'clock a.m. This body comprises 21 members as follows: The Chancellor, Dr. Powell, Victoria; the Vice-Chancellor, Mr. R. P. Cooke, Vancouver; seven representative members elected by Convocation, viz.: His Lordship Bishop Sillitoe, New Westminster; Mr. Charles Whetham, Vancouver; Mr. J. M. O'Brien, Vancouver; Dr. R. I. Bentley, New Westminster; Hon. C. F. Cornwall, Ashcroft; Mr. Fred. Schofield, Vancouver; and Mr. H. Fiennes-Clinton, New Westminster; three members appointed by the Lieut.-Governor in Council, viz.: Mr. J. A. Mara, M.P., Kamloops; Rev. P. McF. Macleod, Victoria; and Rev. Ebenezer Robson, New Westminster; one representative member for the four cities appointed by the respective Municipal Councils: Victoria, Mayor Grant; Vancouver, Rev. E. D. McLaren; New Westminster, Rev. Robert Jamieson; and Nanaimo, Dr. E. A. Praeger; Hon. D. W. Higgins, Victoria, Speaker of the Provincial Legislative Assembly; Mr. J. P. McLeod, Victoria, representative of the Teachers' Institute; Dr. S. J. Tunstall, Kamloops, representing the Medical Society; Hon. A. N. Richards, Q.C., Victoria, representing the Law Society; and the Superintendent of Education, Dr. Pope, of Victoria. It is understood that the question of site will come up.

SEVERELY CRITICIZED.

GOVERNMENT CENSURED AT THE SCHOOL TRUSTEES' MEETING.

The Annual Report of the Board of School Trustees Unanimously Adopted at a Meeting of Citizens—Remarks in Reference to the New School Law.

There were just enough gentlemen, including the trustees, present at the annual meeting of the school trustees to fill the chairs usually occupied by the board of aldermen, with a few others. Trustee Hayward occupied the chair. Trustee Erskine, secretary of the board, read the minutes of the last annual meeting and then the the following report for the past year.

To the Electors of the Victoria City School District:

LADIES AND GENTLEMEN,—Your trustees, in presenting their annual report, have to state that at the commencement of the school year every reasonable effort was made to arrive at a satisfactory understanding with the Department of Education with regard to the expenditure of moneys voted for school purposes.

The whole matter was laid before the authorities without result, and a special delegation appointed to interview the Minister of Education failed in obtaining a hearing.

Your trustees then proposed "that a proper proportion of the amount voted for contingent expenses of the school be paid monthly into the bank to the credit of the trustees," but this offer was also refused; whereupon, encouraged by your approval, the board decided to incur any further responsibilities until previous liabilities had been paid.

Since that time the office of a trustee has been a sinecure, the educational authorities assuming the right to provide everything required, employ janitors, and expend the contingent fund as they pleased. The duties and responsibilities of the trustees were thus limited to the removal and appointment of teachers, and some of the changes made, the board believe, were beneficial to the working of the schools and approved of by a majority of the electors.

The attendance at the public schools, your trustees are pleased to state, keeps pace with the rapid growth of the city—the numbers now attending being 1257, with an average daily attendance of 1225. These numbers are greatly in excess of any previous year, and the necessity of increased accommodation becomes more apparent, and your trustees hope that their successors in office will give this matter their early attention by enlarging the present ward schools, or providing new graded schools.

The sum of money raised by the school concert for the purpose of furnishing a gymnasium still remains deposited in the savings bank, the authorities having promised but failed to provide a building suitable for such a purpose.

On the 30th of the present month, under the provisions of the "Public Schools Act, 1891," the present trustees must cease to act as your representatives, and your own duties and privileges of school electors will, on that day, be taken away and vested in the powers that be.

The trustees, under the new law, will be appointed, three by the Council of Public Instruction and four by the City Council, and time only will tell whether the actions of this appointed body will be such an improvement upon the doings of elective bodies generally as to justify this retrograde movement, especially as the powers of the new trustees enable them to incur large liabilities which the unrepresented city ratepayers will be compelled to pay.

Your trustees believe that the promotion examinations still continue to be held too early, and that the regular school work is seriously disorganized in consequence, from examination time to the end of the term.

In conclusion the Board return thanks for the confidence reposed in them in the past, and trust that their actions have met with your approval.

(Signed.) CHARLES HAYWARD, Acting Chairman.
W. WALKER.
RICHARD HALL.
C. E. MALLETTE.
H. ERSKINE, Secy.

Mr. R. B. McMicking moved and Dr. Milne seconded that the report be adopted.

In answer to the question of Dr. Milne asking the trustees to explain the difficulties they had met with from the Education Department in carrying out school work during the year, the secretary read the letters he had addressed to the Department and the answers he received.

Dr. Milne said that he understood that a great deal of friction had occurred between the department and school trustees and he thought the trustees should explain it.

Chairman Hayward said the Department had refused to pay one bill incurred by the board and therefore they did not wish to incur any other debts.

Trustee Walker said the board were perfectly right in taking the stand they did. The Government should pay all bills incurred legally by the board.

Trustee Mallandaine said the action of the Government in not paying the bill of $5 was very piccayunish. It is expected that a certain sum of money should be placed in the hands of the trustees for running expenses. He did not endorse the report presented.

Wm. Dalby and Dr. Milne—What part of the report do you object to?

Mr. Mallandaine—I object to the tone of it.

Mr. Dalby—If there is anything wrong with the report we would like you to point it out.

Mr. Mallandaine—There is nothing essentially wrong with the report.

Mr. A. Wilson said he did not think the board should blame the Government so much for not paying the $5 bill. He believed the Hon. Premier said in bringing the new bill into the House that he did it by and with the consent of the trustees.

Mr. Hoyward—It was not.

Mr. Wilson thought it was the board's place to go on and pass bills up to the appropriation. The Government have appointed three trustees. One of them, how can he speak to the children in the English language. Another is a Government employee and no Government employee should be a trustee. He thought the council could make as good appointments as the people. The latter do not recognize the boon of public education. Look at the representation here to-day.

Trustee Mallette could not agree with Mr. Wilson, in blaming the trustees for not paying the $5 bill. Don't think there is a man in Victoria with any principal who would pass a bill after one was refused. It was a case. Hon. Jon. Robson had insulted a delegation who called on him. The Government are inconsistent; last year they stopped Mr. Wolfenden from running, and this year they appointed Mr. Jessop a Government employee. Mr. Mallandaine thought the report was too strong, he himself thought it was not half strong enough.

Mr. Mallandaine said the board had not been insulted.

Mr. Hayward as one of the delegation said he would like to draw the attention of Mr. Mallandaine to the scriptural remark made by Mr. Robson about Joseph's brother trying to ruin him. Mr. Robson had also said the board were conspirators.

Dr. Milne—The former reports have always been of a friendly nature to the Government. Mr. Wilson always opposed those reports. Now that the Government is criticised he comes out in support of the Government. When he was a trustee the board could not even get blinds for the school.

Mr. Wilson did not appear as a mouthpiece of the Government. For if there was a rotten government it was one. "I have no respect for the Government at all beyond the fact that he had learned to obey the laws of the Government.

The report was carried without a dissenting voice.

Mr. Shakespeare—There is a great nuisance at the Johnson Street Ward School. There is a large open drain running through the school yard. Filth remains in the drain all summer, and a number of the children have been ill both last and this year.

Mr. A. Wilson—A recommendation should go to the Government from the trustees that all teachers employed be total abstainers. He thought every one who has got anything to do with the schools should be total abstainers. During the past winter children have been allowed to leave school early in the afternoon and only allowed 15 minutes for luncheon. The teachers cannot know much about the working of the human stomach.

Mr. W. Dalby did not approve of the act when it was passed, but it was passed and as citizens they should obey it.

There had been some talk about the council not appointing three trustees. The council should appoint them, as if they did not do so within a certain time the Government could do so. The trustees deserve a vote of thanks for the work they have done during the past year.

A vote of thanks was tendered to the trustees for the work of the past year.

The meeting then adjourned.

TALMAGE ON THE CREEDS

HE GIVES HIS OPINION IN ANSWER TO MANY QUESTIONS.

Satan Himself Is the Chief Instigator of the Controversy Now Raging in Many Churches, and Earnest Work for Christ Is the Remedy.

BROOKLYN, June 14.—Dr. Talmage dealt in his sermon this morning with the very timely topic—the Battle of Creeds. After so long and exhaustive a discussion in clerical circles and in the secular press there seemed nothing more to be said on the subject. Dr. Talmage, however, has his own way of looking at all subjects, and even people who thought they knew all that could be said on both sides received light from the fresh and original contributions which he made to the controversy. His text was taken from Proverbs xxvi, 17. "He that passeth by and meddleth with strife belonging not to him is like one that taketh a dog by the ears."

Solomon here deplores the habit of rushing in between contestants; of taking part in the antagonisms of others; of joining in fights which they ought to shun. They do no good to others and get damage for themselves. He compares it to the experiment of taking a dog by the ears. Nothing so irritates the canines as to be clutched by the lugs. Take them by the back of the neck and lift them and it does not seem to hurt or offend; but you take the dog by the ear, and he will take you with his teeth. In all the history of kennels no intelligent or spirited dog will stand that. "Now," says Solomon, "you go into quarrels or controversies that are not yours and you will get lacerated and torn and bitten. 'He that passeth by and meddleth with strife belonging not to him is like one that taketh a dog by the ears.'"

THIS IS THE AGE OF CONTROVERSY.

This is a time of astounding ecclesiastical quarrel. Never within your memory or mine has the air been so full of missiles. The Presbyterian church has on hand a controversy so great that it finds it prudent to postpone its settlement for at least one more year, hoping that something will turn up. Somebody might die or a new general assembly may have grace to handle the exciting questions. The Episcopal church has cast out some recalcitrants, and its digestive organs are taxed to the utmost in trying to assimilate others. "Shall women preach?" "Or be sent as delegates to conferences?" are questions that have put many of our Methodist brethren on the "anxious seat." And the waters in some of the great baptistries are troubled waters. Because of the controversies through out Christendom the air is now like an August afternoon about 5 o'clock, when it has been steaming hot all day, and clouds are gathering, and there are lions of thunder with grumbling voices and flashing eyes coming forth from their cloudy lairs, and people are waiting for the full burst of the tempest. I am not much of a weather prophet, but the clouds look to me mostly like wind clouds. It may be a big blow, but I hope it will soon be over. In regard to the Battle of the Creeds, I am every day asked what I think about it. I want to make it so plain this morning what I think that no one will ever ask again.

Let those who are jurymen in the case—I mean those who in the different ecclesiastical courts have the questions put distinctly before them—weigh and decide. Let the rest of us keep out. The most damaging thing on earth is religious controversy. No one ever comes out of it as good a man as he goes in. Some of the ministers in all denominations who before the present acerbity were good and kind and useful now seem almost swearing mad. These brethren I notice always open their violent meetings with prayer before devouring each other, thus saying grace before meat. They have a moral hydrophobia that makes us think they have taken a dog by the ears. They never read the imprecatory Psalms of David with such zest as since the Briggs and Newton and Mac Geary and Bridgman and Brooks questions got into full swing. May the rams of the sheepfold soon have their horns sawed off! Before the controversies are settled a good many ministers will, through what they call liberalism, be landed into practical infidelity, and others through what they call conservatism will shrink up into bigots tight and hard as the mummies of Egypt which got through their controversies three thousand years ago.

SATAN STIRRED IT UP.

This trouble throughout Christendom was directly inspired by Satan. He saw that too much good was being done. Recruits were being gathered by hundreds of thousands to the Gospel standard. The victories for God and the truth were too many together. Too many churches were being dedicated. Too many ministers were being ordained. Too many philanthropies were being fostered. Too many souls were being saved. It had been a dull time in the nether world, and the arrivals were too few. So Satan one day rose upon his throne and said, "Ye powers of darkness, hear!" And all up and down the caverns the cry was, "Hear! Hear!" Satan said: "There is that American Board of Commissioners for Foreign Missions. It must either be demolished or crippled, or the first thing you know they will have all nations brought to God. Apollyon the Younger! You go up to Andover and get the professors to discussing whether the heathen can be saved without the Gospel. Divert them from the work of missions and get them in angry convention in a room at Young's hotel, Boston, and by the time they adjourn the cause of foreign missions will be gloriously and magnificently injured. Diabolus the Younger! You go up and get Union Theological Seminary of New York and the general assembly of the Presbyterian church at Detroit at swords' points and diverted from the work of making earnest ministers of religion, and turn that old Presbyterian church, which has been keeping us out of customers for hundreds of years, into a splendid pandemonium on a small scale. Abaddon the Third! You go up and assault that old Episcopal church, which has been storming the heavens for centuries with the sublimest prayers that were ever uttered—church of Bishop Leighton, Bishop White and Bishop McIlvaine, and get that denomination discussing men instead of discussing the eternities. Abaddon the Fourth! You go up to that old Methodist church, which has, through her revivals, sent millions to heaven which we would otherwise have added to our population, the church of Wesley and Matthew Simpson, against which we have an especial grudge, and get them so absorbed in discussing whether women shall take part in her conference that they shall not have so much time to discuss how many sons and daughters she will take to glory."

What amazes me most is that all people do not see that the entire movement at this time all over Christendom is satanic. Many of the infernal attacks are sly and hidden and strategic and so ingenious that they are not easily discovered. But here is a bold and undisguised attempt of the powers of darkness to split up the churches, to get ministers to take each other by the throat, to make religion a laughing stock of earth and hell, to have the Bible with no more respect or authenticity than an old almanac of 1832, which told what would be the change of weather six months ahead and in what quarter of the month it is best to plant turnips. In a word, the effort is to stop the evangelization of the world. It seems to me very much like this: There has been a railroad accident and many are wounded and dying. There are several drug stores near the scene of casualty. All the doctors and druggists are needed and needed right away. Bandages, stimulants, anæsthetics, medicines of all sorts. What are the doctors and druggists doing? Discussing the contents of some old bottles on the top shelf, bottles of medicine which some doctors and druggists mixed two or three hundred years ago. "Come doctors!" "Come druggists!" cry the people, "and help these wounded and dying that are being brought from beneath the timbers of the crushed rail train. In a little while it will be too late. Come for God's sake! Come right away!" "No," says the doctor, "not until we have settled whether the medicine on that top shelf was rightly mixed. I say there were too many drops of laudanum in it, and this other man says there were too many drops of camphire, and we must get this question settled before we can attend to the railroad accident."

DOCTORS DISPUTE WHILE PATIENTS DIE.

And one doctor takes another doctor by the collar and pushes him back against the counter, and one of the druggists says, "If you will not admit that I am right about that one bottle I will smash every bottle in your apothecary store," and he proceeds to smash. Meanwhile, on the lower shelf, plainly marked and within easy reach are all the medicines needed for the helping of the sufferers by the accident, and in that drawer, easily opened, are bandages and splints for the lack of which fifty people are dying outside the drug store. Before I apply this thought every one sees its application. Here is this old world, and it is off track. Sin and sorrow have collided with it. The groan of agony is fourteen hundred million voiced. God has opened for relief and cure a great sanitarium, a great house of mercy, and all its shelves are filled with balsams, with catholicons, with help—glorious help, tremendous help, help so easily administered that you need not get upon any step ladder to reach it. You can reach it on your knees and then hand it to all the suffering, and the sinning, and the dying. Comfort for all the troubled! Pardon for all the guilty! Peace for all the dying! But while the world is needing the relief and perishing for lack of it, what of the church? Why, it is full of fighting doctors. On the top shelf are some old bottles, which several hundred years ago Calvin or Arminius, or the members of the synod of Dort, or the formers of the Nicene creed filled with holy mixtures, and until we get a revision of these old bottles and find out whether we must take a teaspoonful or tablespoonful, and whether before or after meals, let the nations suffer and groan and die. Save the bottles by all means, if you cannot save anything else.

Now, what part shall you and I take in this controversy which fills all Christendom with clangor? My advice is, take no part. In time of riot all mayors of cities advise good citizens to stay at home or in their places of business, and in this time of religious riot I advise you to go about your regular work for God. Leave the bottles on the higher shelves for others to fight about, and take the two bottles on the shelf within easy reach, the two bottles which are all this dying world needs; the one filled with a potion which is for the cleansing of all sin, the other filled with a potion which is for the soothing of all suffering. Two gospel bottles! Christ mixed them out of his own tears and blood. In them is no human admixture. Spend no time on the mysteries! You, a man only five or six feet high, ought not try to wade an ocean a thousand feet deep. My own experience has been vivid. I devoted the most of my time for years in trying to understand God's eternal decrees, and I was determined to find out why the Lord let sin come into the world, and I set out to explore the doctrine of the Trinity, and with a yardstick to measure the throne of the Infinite. As with all my predecessors, the attempt was a dead failure. For the last thirty years I have not spent two minutes in studying the controverted points of theology, and if I live thirty years longer I will not spend the thousandth part of a second in such exploration. I know two things, and these I will devote all the years of my life in proclaiming—God will through Jesus Christ pardon sin, and he will comfort trouble.

KEEP OUT OF THE SQUABBLE.

Creeds have their uses, but just now the church is creeded to death. The young men entering the ministry are going to be launched in the thickest fog that ever settled on the coasts. As I am told that in all our services students of Princeton and Union and Drew and other theological seminaries are present, and as these words will come to thousands of young men who are soon to enter the ministry, let me say to such and through them to their associates, keep out of the bewildering, belittling, destroying and angry controversies abroad. The questions our doctors of divinity are trying to settle will not be settled until the day after the day of judgment. It is such a poor economy of time to spend years and years in trying to fathom the unfathomable, when in five minutes in heaven we will know all we want to know. Wait till we get our throne. Wait until the light of eternity flashes upon our newly ascended spirits. It is useless for ants on different sides of a mole hill to try to discuss the comparative heights of Mount Blanc and Mount Washington. Let me say to all young men about to enter the ministry that soon the greatest novelty in the world will be the unadulterated religion of Jesus Christ. Preach that and you will have a crowd. The world is sick to regurgitation with the modern quacks in religion. The world has been swinging off from the old Gospel, but it will swing back, and by the time you young men go into the pulpits the cry will be coming up from all the millions of mankind, "Give us the bread of life; no sweetened bread, no bread with sickly raisins stuck here and there into it, but old fashioned bread as God our mother mixed it and baked it!"

You see, God knew as much when he made the Bible as he knows now. He has not learned a single thing in six thousand years. He knew at the start that the human race would go wrong and what would be the best means of its restoration and redemption. And the law which was thundered on Mount Sinai, from whose top I had the two tables of stone in yonder wall transported, is the perfect law. And the Gospel which Christ announced while dying on that mount from which I brought that stone in yonder wall, and which Paul preached on that hill from which I brought yonder granite, is the Gospel that is going to save the world. Young man, put on that Gospel armor! No other sword will triumph like that. No other shield will protect like that. No other helmet will

TALMAGE ON THE CREEDS.

Continued from page 6.)

glance off the battle axes like that. Our theological seminaries are doing glorious work, but if ever such theological seminaries shall cease to prepare young men for this plain Gospel advocacy and shall become mere philosophical schools for guessing about God and guessing about the Bible and guessing about the soul, they will cease their usefulness, and young men, as in olden time, when they would study for the Gospel ministry, will put themselves under the care of some intelligent and warm hearted pastor and kneel with him in family prayer at the parsonage, and go with him into the room of the sick and the dying, and see what victories the grace of God can gain when the couch of the dying saint is the marathon.

VITAL RELIGION IS THE REMEDY.

That is the way the mighty ministers of the Gospel were made in olden times. Oh, for a great wave of revival to roll over our theological seminaries and our pulpits and our churches and our ecclesiastical courts, and over all Christendom! That would be the end of controversy. While such a deluge would float the ark of God higher and higher, it would put all the bears and tigers and reptiles of raging ecclesiasticism fifteen cubits under.

Now, what is the simple fact that you in the pew and Sabbath school class and reformatory association and we in the pulpits have to deal with? It is this: That God has somewhere, and it matters not where, but somewhere, provided a great heaven, great for quietness for those who want quiet; great for vast assemblage for those who like multitudes; great for architecture for those who like architecture; great for beautiful landscape for those who like beautiful landscape; great for music for those who like music; great for processions for those who like armies on white horses, and great for anything that one especially desires in such a rapturous dominion; and through the doings of one who was born about five miles south of Jerusalem and died about ten minutes' walk from its eastern gate all may enter that great heaven for the earnest and heartfelt asking. Is that all? That is all. What, then, is your work and mine? Our work is to persuade people to face that way and start thitherward and finally go in. But has not religion something to do with this world as well as the next? Oh, yes; but do you not see that if the people start for heaven on their way there they will do all the good they can? They will at the very start of the journey get so much of the spirit of Christ, which is a spirit of kindness and self sacrifice and generosity and burden bearing and helpfulness, that every step they take will resound with good deeds. Oh, get your religion off of stilts! Get it down out of the high towers! Get it on a level with the wants and woes of our poor human race! Get it out of the dusty theological books that few people read, and put it in their hearts and lives. Good thing is it to profess religion when you join the church, but every day, somehow, we ought to profess religion.

A peculiar patchwork quilt was, during the civil war, made by a lady and sent to the hospitals at the front. She had a boy in the army, and was naturally interested in the welfare of soldiers. But what a patchwork quilt she sent! On every block of the quilt was a passage of Scripture or a verse of a hymn. The months and years of the war went by. On that quilt many a wounded man had lain and suffered and died. But one morning the hospital nurse saw a patient under that blanket kissing the figure of a leaf in the quilt, and the nurse supposed he was only wandering in his mind. But no; he was the son of the mother who had made the quilt and he recognized that figure of a leaf as part of a gown his mother used to wear, and it reminded him of home. "Do you know where this quilt came from?" he asked. The nurse answered, "I can find out, for there was a card pinned fast to it, and I will find that." Sure enough, it confirmed what he thought. Then the nurse pointed to a passage of Scripture in the block of the quilt, the passage which says, "When he was yet a great way off his father saw him and ran and fell on his neck and kissed him." "Yes," said the dying soldier, "I was a great way off, but God has met me and had compassion on me." "Shall I write to your mother and tell her that the lost one is found and the dead is alive again?" He answered, "I wish you would, if it would not be too much trouble." Do you suppose that woman who made that quilt and filled it with Scripture passages had any trouble about who Melchisedek was, or how the doctrine of God's sovereignty can be harmonized with man's free agency, or who wrote the Pentateuch or the inconsistencies of the Nicene creed? No, no; go to work for God and suffering humanity and all your doubts and fears and mysteries and unbeliefs put together will not be heavy enough to stir the chemist's scales, which is accustomed to weighing one-fiftieth part of a grain of chamomile flowers. Why stop a moment to understand the mysteries when there are so many certitudes? Why spend our time exploring the dark garrets and coal holes of a great palace which has above ground one hundred rooms flooded with sunshine? It takes all my time to absorb what has been revealed, so that I have no time to upturn and root out and drag forth what has not been revealed. The most of the effort to solve mysteries and explore the inexplicable and harmonize things is an attempt to help the Lord out of theological difficulties. Good enough intention, my brother, no doubt; but the Lord is not anxious to have you help him. He will keep his throne without your assistance. Don't be afraid that the Bible will fall apart from inconsistencies. It hung together many centuries before you were born, and your funeral sermon will be preached from a text taken from its undisturbed authenticity.

LAY HOLD ON GOD'S WORD.

Do you know that I think that if all ministers in all denominations would stop this nonsense of ecclesiastical strife and take hold the word of God, the only question with each of us being how many souls we can bring to Christ and in how short a time, the Lord would soon appear for the salvation of all nations? When the young queen of England visited Scotland many years ago great preparations were made for her reception. The vessel in which she sailed was far out at sea, but every hill in Scotland was illumined with bonfires and torches. The night was set on fire with artificial illumination. The queen, standing on ship's deck, knew from that that Scotland was full of heartiest welcome, and the thunder of the great guns at Glasgow and Edinburgh castle woke up all the echoes. Boom! they sounded out over the sea. Boom! they sounded up among the hills. Do you know that I think that our King would land if we were only ready to receive him? Why not call to him from all our churches, from all our hospitals, from all our homes? Why not all at once light all the torches of Gospel invitation? Why not ring all the bells of welcome? Why not light up the long night of the world's sin and suffering with bonfires of victory? But the skies do not part. I hear no rumbling of chariot wheels coming down over the sapphire. There is no swoop of wings. I see no flash of angelic appearances. All is still. I hear nothing but the tramp of my own heart as I pause between these utterances. The king does not land because the world is not ready, and the church is not ready. To clear the way for the Lord's coming let us devote all our energies of body, mind and soul. A Russian general riding over the battlefield, his horse treading amid the dying and dead, a wounded soldier asked him for water, but the officer did not understand his language and knew not what the poor fellow wanted. Then the soldier cried out "Christos," and that word meant sympathy and help, and the Russian officer dismounted and put to the lips of the sufferer a cooling draught. Be that the charmed word with which we go forth to do our whole duty. In many languages it has only a little difference of termination. Christos! It stands for sympathy. It stands for help. It stands for pardon. It stands for hope. It stands for heaven. Christos! In that name we were baptized. In that name we took our first sacrament. That will be the battle shout that will win the whole world for God! Christos! Put it on our banners when we march! Put it on our lips when we die! Put it in the funeral psalm at our obsequies! Put it on the plain slab over our grave! Christos! Blessed be his glorious name forever! Amen!

King of Medicines

A Cure "Almost Miraculous."

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered had to go on crutches. A year later, scrofula, in the form of white swellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed 6 years. In that time ten or eleven sores appeared and broke, causing me great pain and suffering. I feared I never should get well.

"Early in 1886 I went to Chicago to visit a sister, but was confined to my bed most of the time I was there. In July I read a book, 'A Day with a Circus,' in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that I decided to try it. To my great gratification the sores soon decreased, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, when, having used six bottles, I had become so fully released from the disease that I went to work for the Flint & Walling Mfg. Co., and since then

HAVE NOT LOST A SINGLE DAY

on account of sickness. I believe the disease is expelled from my system, I always feel well, am in good spirits and have a good appetite. I am now 27 years of age and can walk as well as any one, except that one limb is a little shorter than the other, owing to the loss of bone, and the sores formerly on my right leg. To my friends my recovery seems almost miraculous, and I think Hood's Sarsaparilla is the king of medicines." WILLIAM A. LEHR, 9 N. Railroad St., Kendallville, Ind.

The Merchant Princes

Owe more of their success and vast accumulations to their Real Estate investments than they do to the purchase and sale of merchandise.

Invest judiciously in real estate and after a few years you can sit at your desk and, like a Merchant Prince write your cheque for thousands.

Property well selected is half sold. We submit the best selections that are on the market. Our clients have all made handsome profits without exception. Our subdivision on King's Road, next block to the Public School, is sure to grow in value. The terms are so easy that any workingman can handle it. Our list of other properties is among the best, any of which we will make the terms to suit purchasers.

Take the lesson of the Merchant Prince to yourself. Call on

COAL

The New Vancouver Coal Mining & Land Co., L'd.

(FORMERLY THE VANCOUVER COAL CO.),

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL (Used principally for Gas and Domestic Purposes.)

THE SOUTH FIELD COAL (Steam Fuel).

THE NEW WELLINGTON COAL

(House and Steam Coals are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, a high Illuminating Power, unequalled by any other Bituminous Gas Coal the world, and a superior quality of Coke.

THE "SOUTH FIELD" COAL is now used by all the Leading Steamship Lines on the Pacific.

THE "NEW WELLINGTON" COAL, which was introduced early in the present year, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay, where ships of the largest tonnage are loaded at all states of the tide. Special dispatch is given to Mail and Ocean steamers.
